kingaime132@gmail.com
Kigali, Rwanda

About Me

Motivated and passionate full-stack learner with strong experience in backend development using Python and Flask, as well as frontend technologies like HTML, CSS, and JavaScript. I build responsive, multi-page web applications with secure data handling and API integration.

I also have hands-on knowledge in cybersecurity using Kali Linux, practicing ethical hacking, network scanning, and basic penetration testing. My goal is to create secure and efficient digital solutions that blend functionality with strong user interfaces.

Proactive, self-driven, and always eager to learn new technologies, I enjoy solving real-world problems through code and innovation.

Skills

- Web Design
- python programming
- Graphic Design
- SEO
- cyber security basics
- Backend Programming

Reward
